Summary

Highly motivated and detail-oriented fresher with a strong foundation in HTML5, CSS3, and JavaScript. Passionate about web development and eager to apply acquired knowledge in a Junior Front End Web Developer role. Proficient in creating clean and well-structured code, with a focus on responsive design and user-friendly interfaces. Familiar with SEO best practices to optimize website visibility and improve search engine rankings. Committed to staying updated with the latest web technologies and industry trends. Excellent problem-solving and analytical skills, with a keen eye for detail. Able to work collaboratively in a team environment, communicate effectively, and meet project deadlines. A quick learner with a strong work ethic and a positive attitude. Ready to contribute to the success of a dynamic organization and grow as a front-end web developer.
